

Supported Subjects - Adaptive Test Baseline Based on Exam Year 2024 Qualification Analysis

We collect result data for all subjects within a qualification. However we only publish reports for Supported Subjects - i.e. those that have met our statistical criteria.

If a Subject is supported it will be included in our Value Added Subject Reports 2024, where students have results in that subject and our subsequent Prediction Reports for 2025 and 2026, where students have subject choices assigned for those subjects.

For each subject, there are Subsidiary Analyses e.g. Institution, Gender, Ethnicity. It is possible that whilst the main Subject Analysis is published, the Subsidiary Analysis may be excluded from publication. The same follows for Syllabus Level Analysis - although please note that this Analysis is only available for A2/AS.

You may check the subjects CEM holds for your school/college by using the appropriate CEM editor.

[Online Results Editor](#) (to check or amend results) navigate to Exam Results Centre menu item, from where you will be transferred to the Exam Results Centre webpages.

[Candidate Editor](#) (to check or amend subject choice assignments) navigate to Adaptive Test, from where you will be transferred to Assessment Centre webpages.
